### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark Knedeisen on 1/31/2007.

The application has been amended as follows:

Claims 1, 14, 46, 49, 57, and 60: The preamble (lines 1-2) of these claims should read "A computer-implemented interactive user interface on a computer display, comprising:"

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The examiner has carefully considered all pending claims 1, 3, 4, 6, 9, 11, 12, 14, 15, 17-20, 24, 27, 29, 32, 33, 35, 37, 40, 42, 45-68.

The current invention is directed towards a user interface that provides supply chain information.

One of the prior art of record, Hazel (US 7188317 B1) teaches a multi window display having independently linked windows. The Hazel reference teaches the limitations of the present invention that deal with the operation of the user interface windows. However, the Hazel reference fails to disclose the information that is

Art Unit: 2173

conveyed to the user through the user interface. In particular, Hazel fails to disclose "wherein at least one supplier company identifier is associated with a supplier level indicator that indicates a percentage range of revenue received by the company identified by the at least one supplier company identifier from the focal company" as recited in independent claims 1, 14, 19, 33, 49, 50, and 68. Hazel also fails to disclose "company identifiers for companies whose stock price is known to change with changes to the economic indicator" as recited in independent claims 46, 47, 48, 57- 62.

Another prior art of record, Baker et al. (US 6338067 B1) teaches a hierarchy database containing information about market competition. However, Baker does not provide the teachings that Hazel fails to teach.

An updated search of the prior art was conducted by the examiner, which yielded no significant sources for a rejection of claims 1, 14, 19, 33, 46, 47, 48, 49, 50, 57-62, and 68 over the prior art. Thus the prior art of record neither render nor anticipate the claimed invention.

Therefore, the above limitations, in specific combinations as recited in the independent claims, define the patentability of the claims.

### ***Conclusion***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
